Renewed endorsement and commitment letter on the part of the University of Niš, Serbia

We, the University of Niš, Serbia, having endorsed the 40 principles of Charter and Code, notify you about our commitment to continue the process of implementing a Human Resources Strategy for Researchers (HRS4R) in our institution.

We started the whole process in 2013 and were awarded the HR Label in 2014. Having performed the internal analysis and prepared a revised Action Plan, we feel ready to fully commit to further activities towards endorsing and developing the 40 principles of Charter and Code with the help of the European Commission programmes.

Sincerely Yours,

Dr. Dragan Antić

Rector
